

DEVELOPMENT SERVICES DEPARTMENT  
ENVIRONMENTAL COORDINATOR  
450 110<sup>th</sup> Ave NE  
BELLEVUE, WA 98009-9012

### DETERMINATION OF NON-SIGNIFICANCE

---

**PROPOSER:** Robert O'Connor

---

**LOCATION OF PROPOSAL:** 14464 NE 12<sup>th</sup> Place

---

**DESCRIPTION OF PROPOSAL:** Remove 2 big leaf maples within steep slope and type-f stream buffer. Replant with 1 Douglas Fir or western red cedar, and 2 dogwoods. Leave 10' section of downed tree.

**FILE NUMBERS:** 20-110039-GJ  
452-4441

**PLANNER:** Drew Folsom, 425-

The Environmental Coordinator of the City of Bellevue has determined that this proposal does not have a probable significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(C). This decision was made after the Bellevue Environmental Coordinator reviewed the completed environmental checklist and information filed with the Land Use Division of the Development Services Department. This information is available to the public on request.

- ☐ There is no comment period for this DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's office by 5:00 p.m. on \_\_\_\_\_.
- ☒ This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision. A written appeal must be filed in the City Clerk's Office by 5 p.m. on 9/10/2020
- ☐ This DNS is issued under WAC 197-11-340(2) and is subject to a 14-day comment period from the date below. Comments must be submitted by 5 p.m. on \_\_\_\_\_. This DNS is also subject to appeal. A written appeal must be filed in the City Clerk's Office by 5:00 p.m. on \_\_\_\_\_.

This DNS may be withdrawn at any time if the proposal is modified so as to have significant adverse environmental impacts; if there is significant new information indicating a proposals probable significant adverse environmental impacts (unless a non-exempt license has been issued if the proposal is a private project); or if the DNS was procured by misrepresentation or lack of material disclosure.

Heidi Bedwell, Planning Manager  
Environmental Coordinator  
Elizabeth Stead, Land Use Director

Remove 2 Big Leaf  
Maple Trees

Replant w 1 Douglas fir or western red cedar, 2 native dogwoods, and leave 10'  
section of downed tree

# SEPA Environmental Checklist

The City of Bellevue uses this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

## Instructions

The checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully and to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions.

You may respond with "Not Applicable" or "Does Not Apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies and reports. Please make complete and accurate answers to these questions to the best of your ability in order to avoid delays. For assistance, see [SEPA Checklist Guidance](#) on the Washington State Department of Ecology website.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The city may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

## Background

1. Name of proposed project, if applicable O'Connor 14464 NE 12<sup>th</sup> Pl.
2. Name of applicant Robert (Mike) O'Connor
3. Contact person Same ↑ Phone (425) 747 7493
4. Contact person address 14464 NE 12<sup>th</sup> Pl. Bellevue WA 98007
5. Date this checklist was prepared April 21, 2020
6. Agency requesting the checklist Property owner

DFolsom 8/24/20

7. Proposed timing or schedule (including phasing, if applicable)

As soon as possible

8. Do you have any plans for future additions, expansion or further activity related to or connected with this proposal? If yes, explain.

No

9. List any environmental information you know about that has been prepared or will be prepared, that is directly related to this proposal.

One Tree near edge of Slope  
Kelsey creek at bottom of slope 50'-100' away  
Second tree 50' from Kelsey Creek

10. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

No

11. List any government approvals or permits that will be needed for your proposal, if known.

N/A

12. Give a brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

Removal of one, possibly 2 large  
maple trees on our property -

14464 NE 12<sup>th</sup> Pl.

Bellevue, WA

1 Tree adjacent to the house

1 Tree away from house on a trail

13. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and the section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

14464 NE 12<sup>th</sup> Pl. Bellevue, WA 98007

## Environmental Elements

### Earth

1. General description of the site:

- ☐ Flat
- ☐ Rolling
- ☐ Hilly
- ☒ Steep Slopes
- ☐ Mountainous
- ☐ Other \_\_\_\_\_

Near-approx 45°

2. What is the steepest slope on the site (approximate percent slope)?

45°

3. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

generic dirt very low percentage  
of clay, sand, and gravel bits

4. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

No

5. Describe the purpose, type, total area and approximate quantities and total affected area of any filling, excavation and grading proposed. Indicate the source of the fill.

N/A No {filling  
excavation  
grading

6. Could erosion occur as a result of clearing, construction or use? If so, generally describe.

No

7. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? Zero

DFolsom 8/24/20

8. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.

~~plant dogwood trees x 3 or 4~~

Plant 1 Douglas Fir tree or western red cedar

Plant 2 native dogwood trees

Leave 10' section of downed tree within stream buffer.

DF

#### Air

1. What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

Chain saw noise + saw exhaust

2. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No

3. Proposed measures to reduce or control emissions or other impacts to air, if any.

N/A

## Water

### 1. Surface Water

- a. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

yes Kelsey Creek which eventually flows into Lake Washington

- b. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

~~No work over - just tree removal~~

Replanting DF

- c. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

N/A

- d. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose and approximate quantities, if known.

No

Tree removal not within floodplain

- e. Does the proposal lie within a 100-year floodplain? NO  
If so, note the location on the site plan.

- f. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No

2. Ground Water

- a. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

No

- b. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

N/A we are on a Sewer line

DFolsom 8/24/20

3. Water Runoff (including stormwater)

- a. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

Stormwater - only if extraordinary rain. The adjacent slope is heavily covered with Ivy. Roof has adequate run off through multiple drain pipes

- b. Could waste materials enter ground or surface waters? If so, generally describe.

No

- c. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

No

Indicate any proposed measures to reduce or control surface, ground and runoff water, and drainage pattern impacts, if any.

N/A

DFolsom 8/24/20

## Plants

1. Check the types of vegetation found on the site:

- ☒ deciduous tree: alder, maple, aspen, other Hemlock, western Red Cedar
- ☒ evergreen tree: fir, cedar, pine, other \_\_\_\_\_
- ☒ shrubs
- ☒ grass
- ☐ pasture
- ☐ crop or grain
- ☐ orchards, vineyards or other permanent crops
- ☐ wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other \_\_\_\_\_
- ☐ water plants: water lily eelgrass, milfoil, other \_\_\_\_\_
- ☐ other types of vegetation \_\_\_\_\_

2. What kind and amount of vegetation will be removed or altered?

~~None - just the tree(s)~~  
~~Second tree may not need removal~~

Remove 2 big leaf maple trees DF

3. List any threatened and endangered species known to be on or near the site.

None

4. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site, if any.

~~Addition/replacement with~~  
~~3-4 dogwood (Cornus nuttallii)~~

Plant 1 Douglas Fir tree or western red cedar

Plant 2 native dogwood trees

Leave 10' section of downed tree within stream buffer.

DF

DFolsom 8/24/20

## Environmental Health

1. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste, that could occur as a result of this proposal? If so, describe.

gasoline fumes from  
chain saws

- a. Describe any known or possible contamination at the site from present or past uses.

N/A

- b. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

N/A

- c. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

N/A

DFolsom 8/24/20

- d. Describe special emergency services that might be required.

N/A

- e. Proposed measures to reduce or control environmental health hazards, if any.

N/A

2. Noise

- a. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Chain Saws during tree(s) removal

- b. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)?  
Indicate what hours noise would come from the site.

Short term chain saw  
noise

- c. Proposed measures to reduce or control noise impacts, if any.

N/A

Noise impacts further mitigated  
per BCC 99.18 "Noise Control"  
DF

DFolsom 8/24/20

## Land and Shoreline Uses

1. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

Tree nearest house = no current use  
of area around it. Ivy around base  
Tree away from house borders a 4 ft wide  
graveled trail. No other use  
No effect on current land use except loss of shade

2. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?

No

- a. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how?

No

3. Describe any structures on the site.

None other than our single family residence

DFolsom 8/24/20

4. Will any structures be demolished? If so, what?

N/A = no structures

R - 2.5

5. What is the current zoning classification of the site? Single family residence

SF - M

6. What is the current comprehensive plan designation of the site? Remove 1 or 2 trees

~~Replace Tree #1 with 3-4 shrubs~~

7. If applicable, what is the current shoreline master program designation of the site?

N/A

8. Has any part of the site been classified as a critical area by the city or county? If so, specify.

I don't know. However tree #1 borders our home and is at the crest of a 45° slope having a natural 2-level Terrace which borders 65ft of Kelsey Creek

9. Approximately how many people would reside or work in the completed project? ZERO

10. Approximately how many people would the completed project displace? ZERO

Same 2 adults currently living here

11. Proposed measures to avoid or reduce displacement impacts, if any.

N/A

12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.

N/A

DFolsom 8/24/20

DFolsom 7/20/20

3. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.

N/A

### Historic and Cultural Preservation

1. Are there any buildings, structures or sites located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? If so, specifically describe.

No

2. Are there any landmarks, features or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

No

3. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

N/A

DFolsom 8/24/20

4. Proposed measures to avoid, minimize or compensate for loss, changes to and disturbance to resources. Please include plans for the above and any permits that may be required.

N/A

### Transportation

1. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

Single neighborhood culdesac adjacent to front yard

2. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

No

3. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?

N/A

4. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

No

DFolsom 8/24/20

5. Will the project or proposal use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.

We border Kelsey Creek approximately  
50-100 feet at bottom of 45° slope

6. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?

N/A

7. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

No

8. Proposed measures to reduce or control transportation impacts, if any.

N/A

## Public Service

1. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

NO

2. Proposed measures to reduce or control direct impacts on public services, if any.

N/A

## Utilities

1. Check the utilities currently available at the site:

- ☒ Electricity
- ☒ natural gas
- ☒ water
- ☒ refuse service
- ☒ telephone
- ☒ sanitary sewer
- ☐ septic system
- ☐ other

2. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed.

N/A

DFolsom 8/24/20

## Signature

*The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.*
